Advanced Cardiovascular Life Support Provider and Recertification Course

The Advanced Cardiovascular Life Support (ACLS) Provider Course is designed for healthcare providers who initiate and direct advanced life support beyond basic life support through the stabilization or transport phases of a cardiac emergency, either in or out of hospital. This course will enhance participants skills in the evaluation and management of an adult with cardiac compromise, circulatory compromise, or cardiac arrest.

ACLS Provider and Recertification Courses are offered various times throughout the year at Synergy Medical Education Alliance. Please call for schedule updates and availability.
